2013-2014

There is much to be excited about as we begin the 2013-2014 series of RAEYC Professional Development sessions! This year's theme is "Family and Culture", focusing on the early childhood professionals' ability to respect and support the preservation of children and families' home languages, cultural backgrounds, and childrearing beliefs, goals, and practices. We hope that you will join us for these invaluable upcoming professional development sessions. Let me take this opportunity to also acknowledge and thank Wanda Arnold and Amanda Prinzi, members of the Professional Development Committee as well as additional RAEYC board member input for helping to plan this upcoming year of Professional development offerings.
